

HANDMADE
OPULENCE
BY KASHEE

This is a beautiful piece, created by the designer, Kashee, who is a master of hand embroidery. The saree is made of silk and features a wide, scalloped border and floral motifs. The embroidery is done in white and gold thread, creating a stunning contrast against the magenta fabric.

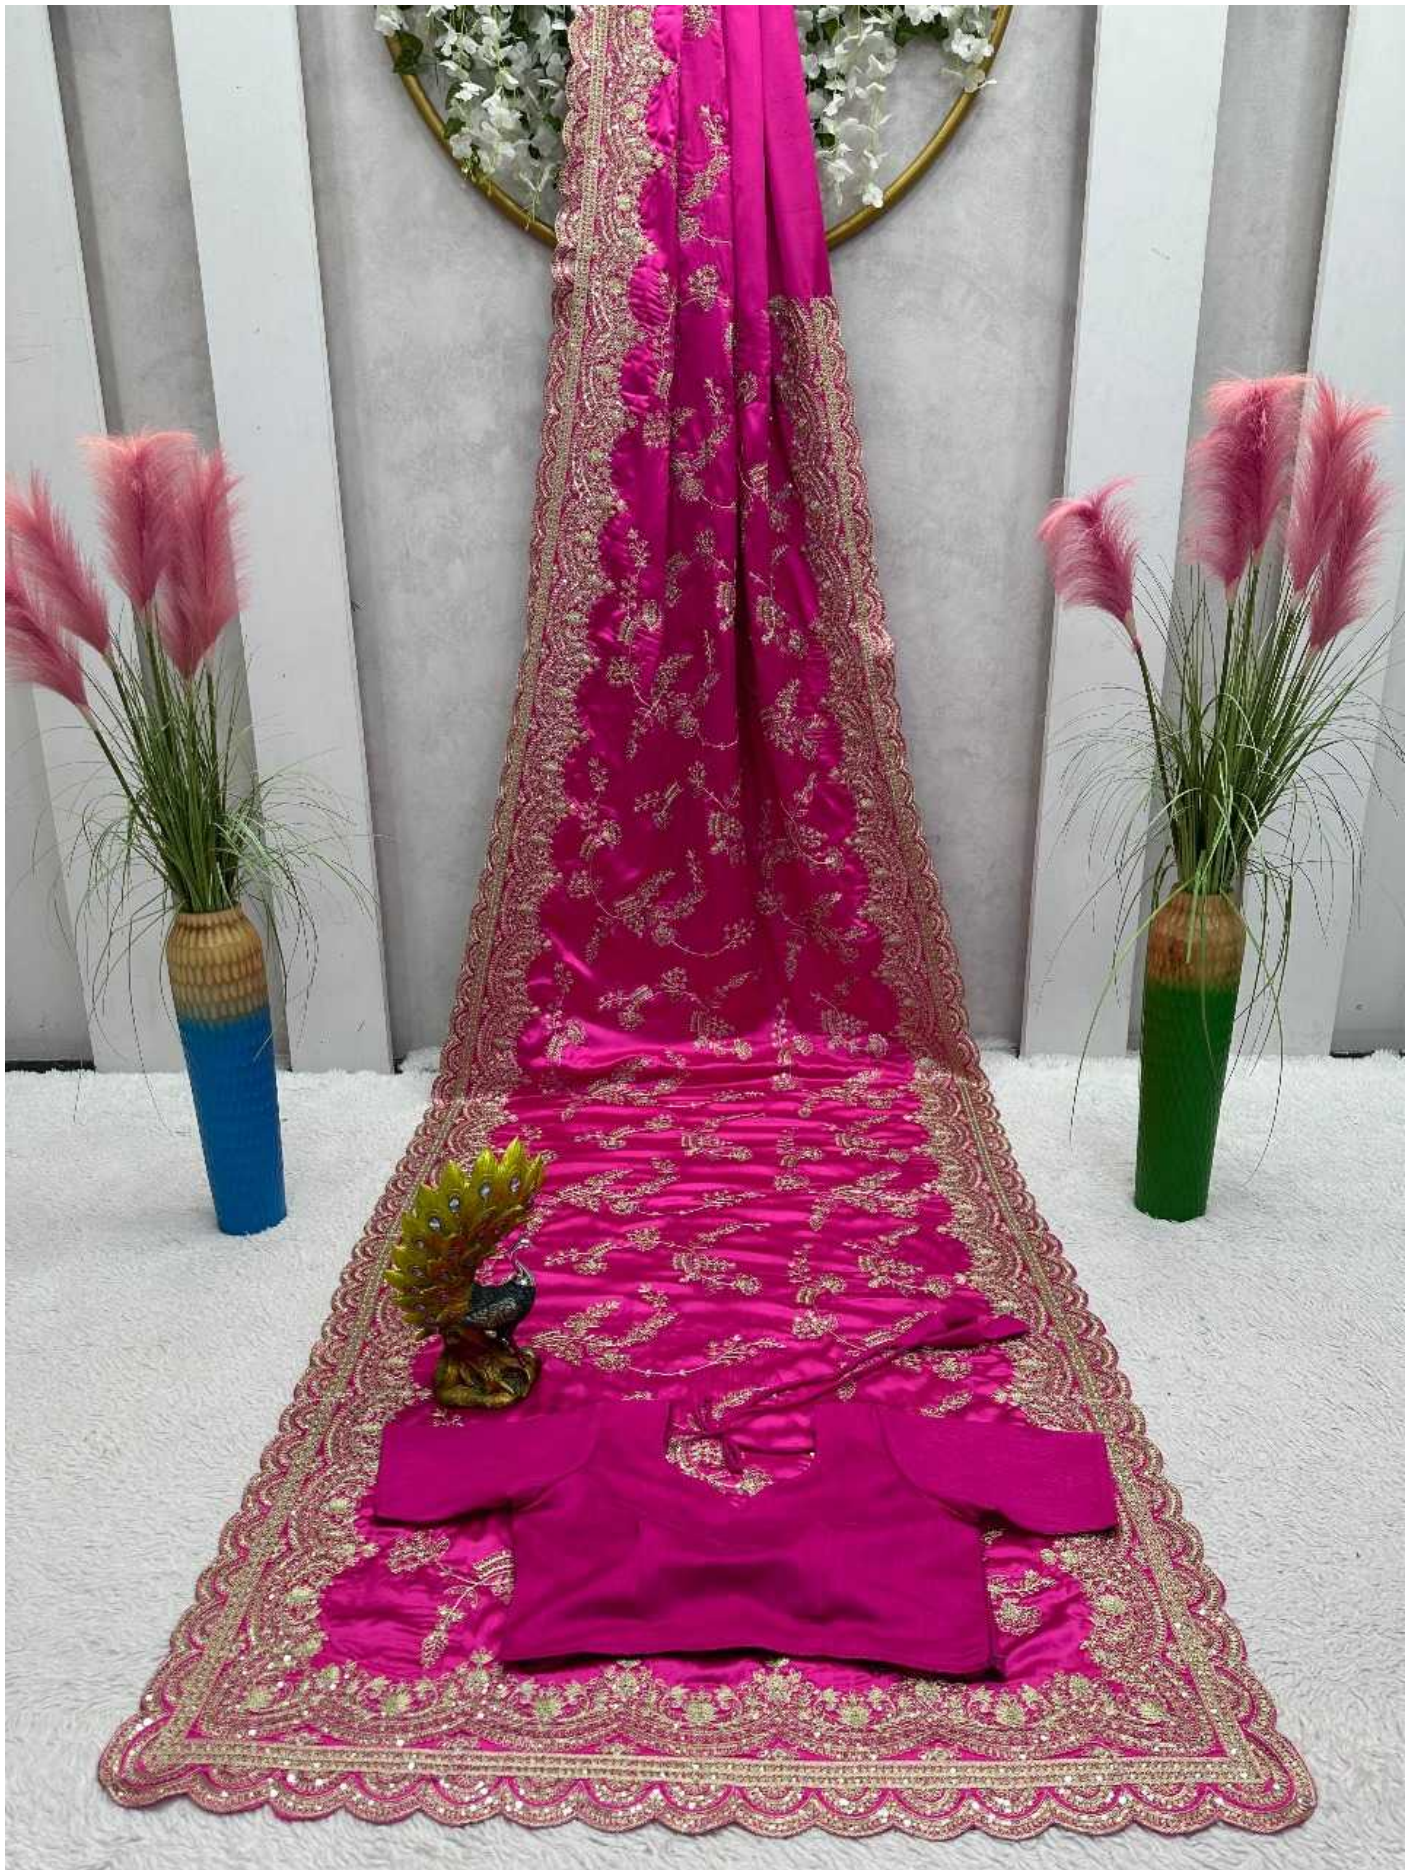

By the way, the saree is made in a traditional style, but the design is very modern. It is a perfect example of how to combine tradition with modernity.
